  student job

Projects

- **Personal website**
  https://github.com/MatteoDeMoor/MatteoDeMoor.github.io
  Independently designed and implemented my personal website. Utilizing HTML and CSS, I created a responsive and visually appealing platform that highlights my web development capabilities.

- **AI & Data Engineering project**
  https://github.com/Robbevanherpe1/DEP1-2023-2024-groep30
  As a key contributor to a collaborative AI & Data Engineering project, I leveraged advanced data analysis and machine learning techniques to solve complex problems.

Language Proficiency

- Dutch (Native)

- English (Proficient)

- French (Intermediate)

- German (Basic)
